Summary

Relentless technologist, founder, and educator with a track record of bringing bold ideas to life. Proficient in scaling software solutions across web, mobile, and hardware platforms. Driven by a first principles approach to problem solving. Polyglot developer adept at managing teams, and unafraid to tackle uncharted technical challenges. Seeking impactful missions that require visionary thinking, rapid execution, and uncompromising quality.

Professional Experience

Discovery Partners Institute (University of Illinois)

Jan 2023 – Present

Software Development Educator, Chicago, IL

- Designed and led an advanced full stack software development curriculum, instilling real-world engineering practices and problem-solving mindsets in trainees.
- Partnered with top-tier companies like John Deere, SAP, HCSC, Zebra Technologies, Underwriters Laboratories, Oak Street Health, and CIBC to align training outcome with industry needs.
- Trained 1,400+ professionals, generating over \$2.4M in program revenue, 80+ direct hires with employer partners, and an average 600% post-program income increase for trainees.

Big Green Company

Sep 2020 – Present

Co-Founder, Chicago, IL

- Spearheaded receipt-ai.com, an AI-driven expense tracking platform enabling users to upload receipts via SMS, email, or web.
- Processed 20,000+ receipts representing over \$22.9M in transaction value, leveraging machine learning for real-time digitization and analytics.
- Directed end-to-end strategy and product development, ensuring continuous iteration, scalable architecture, and revenue growth.

Nerdery

Mar 2017 – Sep 2020

Senior Software Engineer, Chicago, IL

- Delivered high-impact software solutions across various technology stacks to meet client needs in supply chain management, business processes, consumer goods, and more.
- Consistently exceeded client expectations, playing a key role in delivering projects that drove business transformation efficiently and on schedule.
- Recognized for exceptional performance, logging the most billable hours of any employee in the Chicago office in both 2018 and 2019, reflecting strong commitment and client satisfaction.

Education

University of Notre Dame

2009 – 2012

Bachelor of Arts (BA)

Key Skills & Languages

- **Languages and Frameworks:** Ruby, Javascript, Rails, Stimulus
